

May 14, 2020

To Our Valued Patients:

Beginning the week of May 11 we have reopened our office for medical eyecare and urgent optical needs by appointment only. Our present office hours will be 8:30 to 5:00 Monday through Friday.

Please call our office to schedule an appointment and we will take care of your needs.

If you are currently scheduled for an appointment, the back entrance door will be locked. You will be required to enter the front entrance (on Main Street.) The front door will be locked as well, but one of the staff members will open it to let you in at your appointment time.

We recognize this may cause an inconvenience in your schedule, but we ask for your patience and understanding as we all navigate this evolving situation.

Thank you for your understanding,

Eaton Rapids Eye Care Doctors and Staff
